a.a. 2011/2012

Create a Sake Set

Design your own drink set in minutes. Perfect for sake, espresso, whiskey...choose your poison. No 3D skills required!

Play with more Creators

From jewelry to home accessories to action figures, designing has never been easier.

Tutorials

Already designing in 3D? Dig into our tips to get the most out of Shapeways.

Materials

Print your products in 25 materials, including metals, ceramics and glass.

Upload

Upload and order your 3D designs, and see prices for your models instantly.

SHAPEWAY

Shapeway è un sito che offre un servizio di personalizzazione e realizzazione di progetti di stampa 3D di diversi tipi e materiali.

I prodotti realizzati vengono venduti attraverso il sito. La sede principale è a New York, ma il servizio esiste anche in Europa tramite la sede di Eindhoven.

TESTIMONIALS

"As a professional CAD designer with over 15 years of CAD experience using nearly every software platform available, eMachineShop has, without a doubt, the most user friendly design package that I've ever encountered. Even my twelve year old can use this program. Accolades to eMachineShop."

- Ray Kimble

EMACHINESHOP

Si tratta di un servizio di realizzazione progetti che si basa su un software, free CAD, scaricabile dal sito. Grazie a questo gli utenti sono in grado di progettare e dare vita alle loro idee grazie a dei tutorials specifici. Tra i vari tipi di realizzazione digitale ci sono: metodi cnc, taglio laser, prototipazione rapida e altri metodi. Per ciascuno di questi metodi è possibile scegliere dei materiali diversi amplificando le possibilità di progetto.
